Operation:

Connect the ETD-450 to the Scorpion L-450 Electronic Blasting Machine by inserting the plug ends of this device into the socket wells located on top and center of the Blasting Machine Output Terminals. Once secured, operate the L-450 as per the instructions listed on its front face plate for operation. When "DETONATE" is depressed as instructed, the "TEST GOOD" light should illuminate by flashing briefly indicating a successful test. A successful test verifies the output of the L-450 to be 450VDC at 5.0 Joules.
